

FC TOPCUT2016

DESCRIPTION	Single step self-weeding (No-cut) transfer paper for light colored fabrics	
TECHNICAL DATA	FC TOPCUT2016 is made of a 110 µm, 100 gr/m ² natural paper liner , a 30 µm polyolefin layer and a 3 µm composite polymer finish .	
EQUIPMENT	Color laser printer or copy machine + heat press	
SUITABLE FOR	Cotton and other natural or synthetic white or light colored fabrics	FEATURES

FC TOPCUT2016 is a **user friendly self-weeding transfer paper**. Ideal for most oil or oil-less color laser printers. Suitable for **any image. Ideal for flat or gradient colors** (screening up to 30%). **Transfers only the toner-colored areas and gives a screen print finish.**

INSTRUCTIONS		1 Insert the transfer paper in the printer's by-pass and set to extra heavy printing mode (121-188 g/m ²). Print in mirror mode.
		2 Place the fabric on the press and then printed side of the transfer paper on the fabric. Protect the transfer paper with a layer of the white TOPCUT polyester cloth (included in the box).
		3 Pneumatic or manual press: 175°C for 20"-25" - pressure 4 atm / medium-high
		4 Wait 5-6 seconds and remove the paper liner starting from the bottom (as the fibres on t-shirts are usually less stretchable in this direction).
		5 To ensure perfect color penetration in the fabric and the better washing resistance it is fundamental to place the glossy side of the included AU CFC POLSIL plastified silicon paper on the printed fabric and press: Pneumatic or manual press: 175°C for 35" - pressure 5 atm / high

WARNINGS	Check if the transfer is suitable for your laser printer. Printed garment is machine washable at 40°C . Wash and ron inside-out or protect to keep colors bright. Do not use on wide woven fabrics. For further information contact your dealer.	STORAGE
	Store in a cool dry place. Do not expose to direct sunlight. If properly stored the product will maintain its features for at least 2 years.	

The instructions on this sheet are merely indicative and contain details concerning tests carried out in our laboratories with our equipment. Do your own testing. The manufacturer will replace defective material but is not responsible for any damage resulting from incorrect use.

* Also available in 100 A4 sheet boxes. In every box and for each size a white polyester cloth is included (35x50 cm for A4 and 50x70 cm for A3) plus 10 sheets of plastified silicon paper in A4 or A3 size.
